

MONETIZE

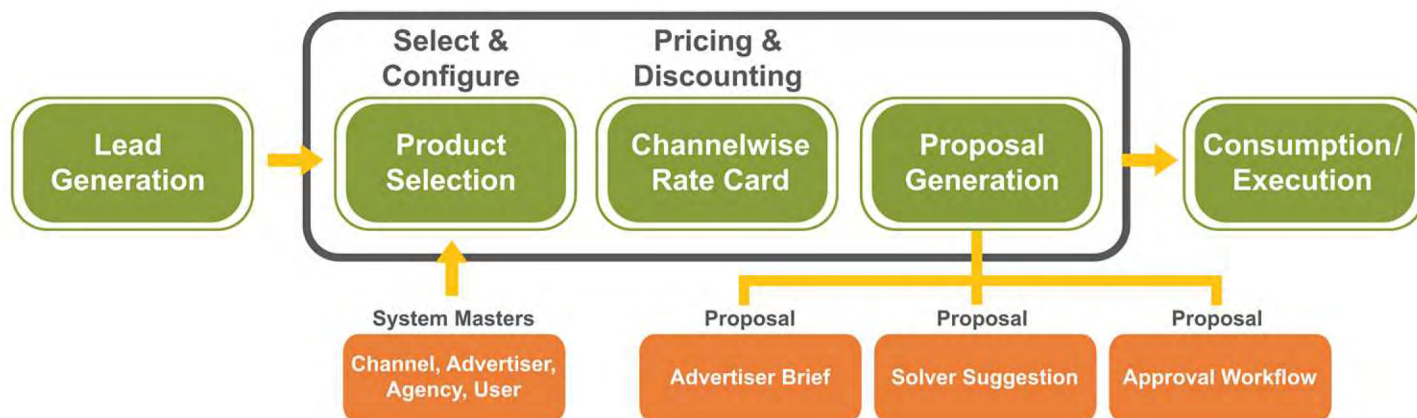

Advertising Sales & Airtime Management

AdsValU is a **Yield Optimization** tool built using Data Science techniques for achieving Revenue Goals and reducing go-to market time for the Sales Team. The solution leverages **Predictive Analysis** based on historical trends of **Audience Measurement** to ensure alignment of Channel Targets (**Revenue**) to Advertiser Objectives (**GRP/GVT**)

AdsValU encapsulates the End-2-End 'Proposal to Deal Lifecycle' by automating aspects of crafting suitable campaigns to meet Advertiser needs in midst of a **Negotiation**

Build Your Campaign

Key Highlights

- Single system to manage both **Airtime** as well as **Sponsorship** Sales.
- Complete **Visibility** through the entire Proposal → Deal lifecycle including Post Evaluation Performance of the Deal basis actual Ad Ratings.
- Leverage **Inventory Optimization** to achieve **Revenue Growth**.
- **Benchmark** and track “Pricing” at the Channel, Advertiser & Sales Unit level.
- Manage **Geo Diversity** by connecting multiple business locations funnelling sales across a pan-Regional Sales Team.
- **Embedded KPI** leading to **Insightful Analytics** for informed **Decision-making**.
- **Competitor Analysis**, Advertiser burn/churn rate, Industry/Sector trends, etc.
- Achieve GRP/GVT commitments through smart **Spot Placement** aligned with Campaigns.
- Compute real time Inventory **Fill Levels** through active integration with Broadcast Management Systems basis **Order Booking**.
- **Accessible** from anywhere. Utilizing an extensive & robust cloud security AdsValU delivers optimized, secured accessibility for Sales Teams on the go.

What If Scenarios

Business Expense

Opportunity and Lead Management - Mining the competitor landscape to deliver leads. Cross channel selling and renewals within the network to culminate viable opportunities.

Proposal / Deal – Sales teams can build custom Proposals on the go based on changing Client briefs commitments. These Proposals are tailor-made to suit Advertiser Target Audience needs and packaging of a healthy mix of weekday/weekend and prime/off-prime respectively. The Sales Personnel can build numerous What-If scenarios by anticipating media buying Agency iteration trends in advance to be best equipped for intelligent negotiations.

Viewership Data – The data warehouse today supports more than 500 Channels across 8 Genres supporting 300+ Target Groups for Advertiser audience.

Analytics – Being the central repository for all Sales activity, AdsValU provides a singular view of the Sales pipeline across the hierarchy. Besides reporting on Sales numbers, the system also provides for efficient deliverables tracking, a Post evaluation of the 'Committed' Deal compared to 'Actual' performance.

Workflow – AdsValU provides for defining Channel specific workflow tracking within the system. Rule set up include slab based sequential / direct methods with custom-defined levels (User Designation) of Approval as may be required. Parameters for rules include Effective Rate, CPRP, Amount as well as a flat rule. – A real daunting need for any enterprise Channel Network.
